_Milan Ličina

_Founder, VIDRA Media Production

“Collaborating with the Materriya team means much more to me than a business relationship. Through our achievements at the Crater Training Center, CGA conference, and the Unreal Fellowship: Storytelling project, we have built a strong partnership based on mutual trust, honest dialogue, and a shared goal to deliver the best possible results to our clients.”

_Andrew Brassington

_VFX Producer, Peerless VFX

“Miljana and her team were always fantastic partners during my tenure at Escape Studios. They consistently demonstrated real dedication to any project we worked on together and delivered excellent results time after time. Our journey together spanned two transformative initiatives: a cross border internship programme called Summership 2019 and a major pan European project funded by Epic Games called The Summer of Unreal 2021. She is one of the most reliable, dedicated and talented partners I have worked with over the years.”
